Looking for a few good men (and women!)

My company is FABMAC Homes, and I am the General Contractor. We would like to hire new people on a permanent basis for our local crew, and we will train in all aspects of manufactured home construction. We are very much a team, and would like to find new hires that will be a good fit with us. A sense of humor and a willingness to learn new skills is important.

INCOMPLETE HOMES

Our homes arrive pretty much completed on the inside, but we are responsible for all aspects of the final exterior construction for these homes. Most of the work is carpentry, which includes: leveling and marrying of the sections together so they are weather tight, lap siding closeup on the end walls, foundation set with steel and concrete posts and piers, crossovers for electrical, plumbing and ducting, skirting, decking, stairs and landings, garages or carports, interior drywall tape, texture and paint, interior squaring up of doors and windows. Once electric is installed, testing of appliances for function.

COMPLETED HOMES

If you are interested in joining our team, send your resume to
